# SEATING

Seating is a difficult product to cover in a brochure as there are so many different products and styles available.

More and more today, libraries are straying from the traditional wood library chair and gravitating to poly and metal or poly, upholstered and metal options. In many instances, these chairs will nest, stack or be on casters. This change in thinking has largely taken place due to the need for areas to be flexible and quickly converted from one application to another.

The purpose of this brochure is to touch on the most popular items available, but if you do not find exactly what you are looking for featured in this booklet, please feel free to contact us as we are confident we have the product to fulfill your needs.

SitOnIt • Seating®

The Focus line of seating combines comfort and design for multiple applications. It is available with 3 back options; mesh, upholstered and wood and two different frame finishes: silver or black. It is available with or without arms, casters and even at a stool height.

**FOCUS**

The Focus line of seating also offers task chairs and stools available in midback or highback options. These chairs are designed for private offices, collaborative spaces and conference rooms.

# RIO

The Rio line of seating offers options for multipurpose use. Whether you are looking for a standard side chair, a leg base chair, a sled base chair or a task chair or stool, Rio can meet your requirements. Rio is available in vibrant colors, and can stack. Available options are casters, arms and tablet arms. Chair features easy grip edge that acts as pull handle. Chair available fully upholstered, upholstered seat or plastic.

# LUMIN

Like Rio, the Lumin line of seating offers options for multi-purpose use. Available as a standard side chair, a leg base chair, a sled base chair or a task chair or stool, Lumin will “light” up any room. Available in 14 plastic shell colors, Lumin can stack 4-8 high on the floor and 8-15 high on the optional cart.

# InFlex

InFlex—the chair with flex appeal. The InFlex line of seating was designed and engineered to create a flex-back disc system that follows the spine's natural curve. InFlex stacks 5 high on the floor or 8-12 high on the optional cart. It is available with casters, arms, tablet arms or in a task chair or stool version.

# Anytime

Anytime, anywhere. The Anytime line of seating is a light-weight chair with a wide contoured seat and perforated back with a built-in handle. Chair is available fully upholstered or upholstered seat only in side chair, task chair, task stool and bar stool options. It is also available with casters, arms or tablet arms.

# COMMUNITY

The Avalon line of seating features a metal frame with wood or upholstered back and either a wood or upholstered seat. The wood back is available in five distinct back designs and may even be laser-engraved or cut-out. A four-leg stool or swivel stool are also available.

# AVALON

# ALDEN

Like the Avalon line, Alden features a metal frame, but a metal slat back in place of Avalon's wood back. The Alden back is available in three different style options and the seat is available in either wood or upholstery. A four-leg stool or swivel stool are also available.

# WALKER

Walker features a metal frame with waterfall seat for style and comfort. Seat is available in wood or upholstered. The back is available in six style options (3 wood, 3 metal) and can even be laser-engraved or cut-out.

back style A (wood)

back style C (wood)

back style D (wood)

back style E (metal)

back style F (metal)

back style G (metal)

# CYM

Cym is available in four-leg and 5-star bases with casters. Swivel tilt models are also available. Cym features durable metal frame construction and plastic, armless models stack up to 10 high on transport cart or floor. Chair is available with or without arms and also as a stool.

The Wink collection is available in arm or armless styles with chromium plated metal legs. The shells can be plastic or wood (plastic shells are available in solid or translucent colors). Plastic shells stack 5 high on floor. Also available with upholstered seat or as a stool

# HOOPZ

Hoopz features a metal frame and either a plastic or upholstered seat and back. Plastic modes can stack 10 high on the floor and 45 high on the cart. Upholstered models not recommended for stacking.

# AMERICANA

Nothing says traditional like the Americana chair. This style has certainly stood the test of time. The Americana collection is available in all-wood, with an upholstered seat, armless, armed, with a tablet arm, as a stool, a swivel chair, a swivel stool and even a bench. Finish it in a fun color and add a little pizzazz to your traditional environment.

# ADDISON

Addison is another traditional style of seating and is available in an adult version, stools and a children's version. Addison offers a wood or upholstered seat, brass scuff plate on the stools, optional front leg casters on chairs only and laser engraved back option.

# BOSTON

The Boston line of seating is a classic original design circa 1929. It is available in arm and armless models and is a solid wood construction for long life. Available with wood or upholstered seat, five-star swivel or jury base, nail trim, front leg casters or laser-engraved wood backs. The Boston collection is also available as a bench.

# CHANCELLOR

The Chancellor collection is a chair that compliments Mission style furniture. It has a solid wood construction and is available in armed and unarmed versions as well as a stool. The seat can be wood or upholstered and the back is available with either a single or double rail.

Chancellor is available with optional single rail and standard double rail backs.

# EMERSON

Like Community's other wood lines, Emerson is a solid wood construction for long life. Available with wood or upholstered seat, front leg casters or laser-engraved wood backs.

# STERLING

The Sterling chair features a solid wood construction and is available in armed and armless versions. The seat can be wood or upholstered and the back is available with laser engraving. The Sterling chair stacks up to 10 high.

Jasper's 100 Series chair is probably the most popular chair out there. It is available with several back styles, as well as armed and armless versions. The seat can be wood, upholstered, or upholstered with brass nail trim.

## 100 SERIES

BNT Option (Brass Nail Trim)

Jasper's 5700 Series is available with either a wood or upholstered seat in one of two back styles

## 5700 Series

While Jasper's 170 Series is your typical library chair, its 2-position and 3-position versions are great for applications where the patrons or students have the tendency to lean forward or backward as these chairs are designed for just that. Gone are the days of broken legs or cracked backs.

All versions of the chair are available with in all-wood, upholstered seat/wood back, wood seat/ upholstered back or upholstered seat and back. Chair is also available with or without arms and in either 4-leg or sled base. Optional dome back and tablet arm are also available.

## 170 Series

D Option (Dome Back)

## 170 Series

3 Position Sled Base

5-star base option

2 Position Sled Base

Jasper's 6900 Series seating is available in Maple and Beech with a black or polished chrome base. Back can be plain or one of two cut-out options (circles or diamonds). Chairs stack 10 high and are available with leg base option if desired.

## 6900 Series

Back options

Leg base option

The 430 Series features steam bent parts, solid wood corner blocks and veneer back with 5-layer plywood core for balanced construction.

430 Series chairs are available in all wood, wood back/upholstered seat, upholstered back/wood seat and upholstered seat and back. The 430 series also offers juvenile height chairs as well as a stool option.

## 430 Series

Back View

The Arapahoe chair features a square back shell that highlights the beauty of wood and the stability of metal legs.

Arapahoe

Modern and simple best describe the Flick chair. Flick features a steel rod sled base and sleek molded maple plywood shell.

Bar stool, counter stool, task and upholstered seat pad versions are available in addition to a chair dolly.

Flick

With its appealing contours, the sturdy, versatile Lorca chair fits in equally well in contemporary and traditional spaces.

Lorca

Plover's strong form and organic curves make a pleasing statement in any environment. A wide seat and back add comfort to this chair and provide desired stability for a broad range of uses.

Plover

With an ideal balance of form and function, the sophisticated Wyoming chair fits comfortably in modern and traditional design spaces.

Upholstered seat or task base options are available.

Wyoming

Elegant, yet sturdy, classic, but with a dash of modern flair, the Kestrel chair blends the best of traditional solid wood furniture design with exciting contemporary styling.

Upholstered seat pad and task versions also available.

Kestrel

Handsome, sharp and versatile, the Skye chair embodies simple elegance with traditional lines. Its sturdy solid wood base is topped by an upholstered seat (wood seat optional).

Skye

Skye 2 is a smaller scale version of the Skye chair making it a perfect solution for table seating.

Skye 2

Sturdy and lightweight with a rounded back, the Lorca child chair is ideally suited to children's needs. Cut-outs are selected from TMC's portfolio or can be specified as custom.

Nylon glides move gently over floor surfaces.

Lorca child

Just for kids, the Karma's child-friendly forms may be enhanced with cut-outs and color selections to create lasting appeal.

Constructed of a molded plywood shell with metal legs and base, the Karma is sturdy, lightweight and stackable to 10-high.

Karma Curve

Wide in stance, strong and bold in style, the Wyoming Child chair makes an ideal children's chair for almost any setting.

Numerous cut-outs are available from TMC's design portfolio. Optional seat pad may be specified.

Wyoming Child

The Froddy Chair with its striking square back has a comfortable wood shell and sturdy metal legs perfect for many types of children's areas. Chair can bring a bright pop of color to your children's environment.

Froddy

Like the Karma Curve, the Karma Horizon can be enhanced with cut-outs and color selections to create lasting appeal.

Karma Horizon

The Plover Child chairs wide shell back and deep leg stance make it stable for even the most active children. Especially charming for its organic curves and bent plywood legs, the Plover Child makes a statement in any installation.

Plover Child

Kestrel Perimeter chairs are available with single or two-tone finishing and offered in 12", 14" and 16" child seat heights.

Kestrel Perimeter

Like the Kestrel Perimeter, Lorca Perimeter chairs are available with single or two-tone finishing and offered in 12", 14" and 16" child seat heights.

The Lorca Perimeter features powder-coated metal legs.

Lorca Perimeter

Flick Perimeter

Plover Perimeter

A nice treat for the little tykes, Edwin the dog, the Little Barred Owl and Gary the snail perimeter stools mix perfectly with plain cubed stools to form colorful and practical seating configurations.

Zetty Perimeter Stools

Zetty Perimeter benches are a whimsical and fun seating option. Pictured here are Scout the dog and Scooter the turtle.

Zetty Perimeter Benches

TMC's task base is available on the Kestrel, Lorca, Plover and Wyoming shells with an optional seat pad and cut-outs.

The five-star base with casters and gas cylinder allow for ease of seat adjustment and mobility.
